Describe the proposed changes to the program as well as the rationale for making the specific changes and include any relevant supporting data

We would like to remove the following emphasis options from our program: Development & Aging and Philosophy of Mind. The executive committee has reviewed the enrollment numbers and course availability prior to making this decision. Development and Aging makes up 9.35% and Philosophy of Mind makes up 1.34% of our student population. The committee reviewed the historical data regarding the availability of courses for this emphasis and they have not been offered consistently forcing our advisors to make exceptions or students to move to a different emphasis.

Plan Description

Work with Marketing to develop a description for the proposed program. Include the purpose, nature, and highlights of the curriculum, faculty expertise, emphases (if any), etc. Typically, 100-250 words.

Impacts & Considerations

Faculty impact – How will faculty workload be allocated and/or will new faculty hires be required to deliver the new, proposed curriculum?

No faculty impact - as courses have not been consistently offered our students have not been able to enroll into the emphasis options on a regular basis to create any impact

Budgetary impact – Indicate new resources needed and source of funding to implement proposed changes. If reallocating resources, indicate where resources will be taken from and the impact this will have on students/faculty/program/unit.

No budgetary impact

Transfer Student Consideration – Please explain how you have planned and evaluated the changes you requested in the context of: Mitigating the complexity of the transfer pathway/curriculum; Supporting transfer student success; Ensuring transferability of course work from Arizona community colleges

There should be no issues with Transfer students - as we still have other emphasis options available, and if students want to do anything similar to the two emphasis options we are removing we have the thematic emphasis that they will be able to use.
